

Virtual Meeting on Social Determinants of Health

Thursday, April 4th, 9-11:00 AM

Are you a researcher, educator, trainee or service provider with expertise or interest in the Social Determinants of Health?

To provide a forum for those interested in networking with potential collaborators in this important field, The Collaboration Network (TCN) is hosting a campus-and community-wide WebEx meeting on SDoH on April 4th from 9:00-11:00 AM.

Please join or form a group meeting in a WebEx-enabled location, or join us from your own phone or computer by accessing the WebEx information at:

<https://cctst.uc.edu/programs/cis/collaboration>

Using WebEx, we will explore our institutional and community-wide expertise and capacity for research, educational and community programs, and identify interested investigators and groups with the capacity to write grants and execute projects.

FOR MORE INFORMATION Please contact Laura Hildreth at 513-558-3333 or hildrele@uc.edu
